

Got leftover medicine? Dispose of it safely.

Over **44,000** people die annually from unintentional drug poisoning.

Seven out of 10

people who abuse prescription drugs get them from friends or family members.

Among children,

emergency room visits for accidental drug poisoning are twice as common as poisonings from household products.

Safely dispose of your unwanted and expired medications the right way by bringing your medications to one of the locations in your area offering free drug take-back programs.

THE LOCATION(S) LISTED BELOW WILL ACCEPT YOUR LEFTOVER PHARMACEUTICALS FOR FREE—NO QUESTIONS ASKED.
